OBJECTIVES

By the end of this lesson the cadet shall have adopted the positions of attention, stand at ease and stand easy.

IMPORTANCE

It is important for cadets to be able to perform drill movements at a competent level, developing sharpness, esprit-de-corps, physical coordination and alertness. These movements should be executed with ease ensuring that the cadets move together as one, which promotes discipline, alertness, precision, pride, steadiness and cohesion, and helps develop teamwork.

Develop and use a vocabulary of short, concise words to impress on the cadets that the movements must be performed smartly. For example, the words "crack", "drive", "seize" and "grasp" suggest the degree of smartness required. Profanity or personal sarcasm shall never be used.

Proper drill movements shall be combined with a professional demeanour throughout this lesson.

This lesson is broken down into movements. Explain demonstrate, and allow time for the cadets to practice, in a variety of positions.

Capitalization indicates the words of command for each movement.

Cadence is to be maintained when completing movements.

The term squad is a generic name for a group of cadets, used to teach drill movements. This term can be interchanged with platoon, flight, division or any other applicable elemental or regimental term.

Assistant instructors may be required for this lesson.

Teaching Point 1

Explain, demonstrate and have the cadets adopt the position of attention.

Time: 5 min

Method: Demonstration and Performance

ADOPT THE POSITION OF ATTENTION

The cadet shall adopt the position of attention, by ensuring:

1. heels are together and in line;
2. feet are turned out to form an angle of 30 degrees;
3. body is balanced and weight distributed evenly on both feet,
4. shoulders are level, square to the front,
5. arms are hanging as straight as the natural bend will allow, with elbows and wrists touching the body,

6. wrists are straight, the back of the hands outwards, fingers aligned, touching the palm of the hand, thumbs placed on the side of the forefinger at the middle joint with the thumbs and back of the fingers touching the thighs lightly and the thumbs in line with the seam of the trousers,
7. head is held erect, neck touching the back of the collar, eyes steady, looking their height and straight to the front, and
8. no part of the body is strained.

Teaching Point 2

Explain, demonstrate and have the cadets adopt the position of stand at ease.

Time: 5 min

Method: Demonstration and Performance

ADOPT THE POSITION OF STAND AT EASE

The position of standing at ease is an intermediate position between attention and standing easy. It allows no relaxation, but can be maintained without strain for a longer time than the position of attention.

On the command STAND AT EASE BY NUMBERS, SQUAD—ONE, the cadet shall bend the left knee.

Note. From The Canadian Forces Manual of Drill and Ceremonial (p. 2-4), by Director of History and Heritage 3-2, 2005, Ottawa, ON: Department of National Defence.

On the command ONE PACE LEFT CLOSE—MARCH, combine the two movements, observing the following timing:

1. one pace, one-one;
2. two paces, one-one, pause, one-two; and
3. three paces, one-one, pause, one-two, pause, one-three.

INTRODUCTION

REVIEW

Review the drill movements from EO M108.04 (Execute to the Right and Left).

OBJECTIVES

By the end of this lesson the cadet shall have executed paces forward and to the rear.

IMPORTANCE

It is important for cadets to be able to perform drill movements at a competent level, developing sharpness, esprit-de-corps, physical coordination and alertness. These movements should be executed with ease ensuring that the cadets move together as one, which promotes discipline, alertness, precision, pride, steadiness and cohesion, and helps develop teamwork.

Develop and use a vocabulary of short, concise words to impress on the cadets that the movements must be performed smartly. For example, the words "crack", "drive", "seize" and "grasp" suggest the degree of smartness required. Profanity or personal sarcasm shall never be used.

Proper drill movements shall be combined with a professional demeanour throughout this lesson.

This lesson is broken down into movements. Explain, demonstrate and allow time for the cadets to practice, in a variety of positions.

Capitalization indicates the words of command for each movement.

Cadence is to be maintained when completing movements.

The term squad is a generic name for a group of cadets, used to teach drill movements. This term can be interchanged with platoon, flight, division or any other applicable elemental or regimental term.

Assistant instructors may be required for this lesson.

Teaching Point 1

Explain, demonstrate and have the cadets execute right dress.

Time: 15 min

Method: Demonstration and Performance

Right Marker. The individual on the right hand side of the front rank.

RIGHT DRESS

Dressing of a squad is required to ensure a uniform, organized appearance when in a formed body. The most common movement used to dress a squad is the right dress.

On the command RIGHT DRESS BY NUMBERS, SQUAD—ONE, the right marker stands fast; and the remainder shoots the left foot forward one half pace, bends the right knee and adopts the position of attention.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- incorrect pace size,
- arms not held straight and firmly to the sides,
- wrong foot moved,
- foot is lifted instead of bending the knee, and
- lower leg and foot hanging at an unnatural angle.

On the command SQUAD—TWO, the right file stands fast and the remainder turn their head and eyes to the right as far as possible without straining. Simultaneously, the front rank, except the right marker, shoots the right arm its full extent behind the shoulder of the cadet on the right. The hand is closed as in the position of attention, back of the hand uppermost and arm parallel to the ground.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- arm not parallel to the ground,
- centre or rear rank raise arms,
- body is twisted, and
- looking in the wrong direction.

On the command SQUAD—THREE, the right marker stands fast; and the remainder take up correct alignment, distance and covering by taking short, quick paces until they are in position.

Movement starts with the left foot.

Note. From The Canadian Forces Manual of Drill and Ceremonial (p. 2-19), by Director of History and Heritage 3-2, 2006, Ottawa, ON: Department of National Defence.

Figure 1 Arm Interval-Right Dress

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- arm striking next person, and
- hand slapping the side of the leg.

On the command RIGHT—DRESS, the three movements are combined, observing the standard pause between the movements. The timing is one-two, pause, arms, pause, move.

Standard Pause: The standard pause between each movement is two beats in quick time.

When dressing by the left, the same drill is followed except the head and eyes are turned left and the left arm is raised. The left marker stands fast, looks to the front, and those in the file behind adopt the appropriate distance between ranks.

Dressing may be ordered by the centre if more than one squad is on parade in line or mass. The command is INWARD—DRESS, and flanking squads shall dress by their left or right as appropriate.

When a squad is formed with only one person in the blank file, that individual shall dress with the front rank when the squad is advancing and with the rear rank when the squad is retiring. When the squad is moving to a flank, the individual shall dress with the directing flank.

Practice the movement with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Emphasize any movements with which the cadets had difficulty during the TP.

CONFIRMATION OF TEACHING POINT 1

The cadets' executing right dress will serve as the confirmation of this TP.

Teaching Point 2

Explain, demonstrate and have the cadets execute eyes front.

Time: 5 min

Method: Demonstration and Performance

EXECUTE EYES FRONT

On the command EYES—FRONT, the cadets shall snap their head and eyes to the front and cut the right arm to the rear of the individual on the right and to the position of attention without slapping the thigh.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

CONFIRMATION OF TEACHING POINT 2

The cadets' executing eyes front will serve as the confirmation of this TP.

Teaching Point 3

Explain, demonstrate and have the cadets execute shoulder dressing.

Time: 5 min

Method: Demonstration and Performance

On the command SHOULDER DRESSING, RIGHT—DRESS, the movements are the same as for right dress, except that the arms are not raised and dressing is taken up without arm's length interval. Enough lateral space is left between the shoulders of each person in the rank to complete any movements that may follow the dressing.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults are the same as right dress except that the arm is not raised.

CONFIRMATION OF TEACHING POINT 3

The cadets' executing a shoulder dressing will serve as the confirmation of this TP.

Teaching Point 4

Explain, demonstrate and have the cadets execute elbow dressing.

Time: 5 min

Method: Demonstration and Performance

On the command ELBOW DRESSING, RIGHT—DRESS, the movements are the same as the right dress except, the right hand is placed on the hip or jacket belt as applicable. The fingers are closed, pointed down and extended forward with thumbs to the rear and the point of the elbow is forced forward and touching the cadet's arm on the right.

Note. From The Canadian Forces Manual of Drill and Ceremonial (p. 2-19), by Director of History and Heritage 3-2, 2006, Ottawa, ON: Department of National Defence.

Figure 3 Elbow Dressing

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults are the same as dressing at arm's length and also include bending the wrist and hand not on hip.

END OF LESSON CONFIRMATION

The cadets' executing movements required for the right dress will serve as the confirmation of this lesson.

The term squad is a generic name for a group of cadets, used to teach drill movements. This term can be interchanged with platoon, flight, division or any other applicable elemental or regimental term.

Assistant instructors may be required for this lesson.

Teaching Point 1

Explain, demonstrate and have the cadets march in quick time.

Time: 10 min

Method: Demonstration and Performance

The standard length of a pace is 75 cm.

MARCH IN QUICK TIME

Corps / Squadrons march and manoeuvre on foot in quick, slow, and double time. When marching in quick time, the cadence is set at 120 paces per minute.

The quick march can be maintained for long periods of time and is the standard for routine duty.

On the command QUICK MARCH BY NUMBERS, SQUAD—ONE, the cadet shall shoot the left foot forward one half pace, toe up; strike the heel on the ground first and keep the toe pointed directly forward; and simultaneously, swing the right arm straight forward and the left arm straight to the rear, waist high.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- taking a pace greater than 35 cm (one half pace);
- placing or slapping the left foot flat on the ground instead of striking the heel first; and
- swinging the arms at an incorrect height.

On the command SQUAD—TWO, the cadets shall continue to march with subsequent paces of standard length; bringing the legs forward successively in a straight line; swinging the arms forward successively in a straight line from the shoulder, front to rear, with hands closed as in the position of attention; and maintaining dressing by the directing flank.

The directing flank is the rank or file assigned by the commander as that from which the dressing is to be taken, when formed as a squad.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults are the same as for the initial pace except the pace is greater or less than 75 cm.

On the command QUICK—MARCH, combine the two movements. The timing will be “LEFT—RIGHT—LEFT”

Method: Demonstration and Performance

HALT IN QUICK TIME

On the command HALT BY NUMBERS, SQUAD—ONE, given as the left foot is forward and on the ground, the cadet shall check the forward movement by placing the right foot flat on the ground, use the heel as a brake; and swing the left arm forward and the right arm to the rear.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults are the same as the initial pace except taking a pace larger than 35 cm (one half pace).

On the command SQUAD—THREE, the cadet shall bend the right knee, straighten it in double time; and simultaneously, cut the arms to the side and assume the position of attention.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include not cutting the arms to the side; and not bending the right knee and straightening in double time.

On the command SQUAD—HALT, combine the three movements in quick time. The timing for the movements is counted as ONE, ONE, ONE-TWO.

INTRODUCTION

REVIEW

Review the drill movements from EO M108.08 (March and Halt in Quick Time).

OBJECTIVES

By the end of this lesson the cadet shall have executed marking time, forward and halting in quick time.

IMPORTANCE

It is important for cadets to be able to perform drill movements at a competent level, developing sharpness, esprit-de-corps, physical coordination and alertness. These movements should be executed with ease ensuring that the cadets efficiently moving together as one will promote discipline, alertness, precision, pride, steadiness and cohesion.

Develop and use a vocabulary of short, concise words to impress on the cadets that the movements must be performed smartly. For example, the words "crack", "drive", "seize" and "grasp" suggest the degree of smartness required. Profanity or personal sarcasm shall never be used.

Proper drill movements shall be combined with a professional demeanour throughout this lesson.

This lesson is broken down into movements. Explain, demonstrate and allow time for the cadets to practice, in a variety of positions.

Capitalization indicates the words of command for each movement.

Cadence is to be maintained when completing movements.

The term squad is a generic name for a group of cadets, used to teach drill movements. This term can be interchanged with platoon, flight, division or any other applicable elemental or regimental term.

Assistant instructors may be required for this lesson.

Teaching Point 1

Explain, demonstrate and have the cadets mark time.

Time: 10 min

Method: Demonstration and Performance

MARK TIME

Marking time is executed when ceasing forward motion for a short period of time, while on the march. Marking time is carried out at the same cadence as for marching. Only the legs are moved and the upper portion of the body remains in the position of attention with arms at the side.

The command for mark time is given as the right foot is forward on the ground.

On the command MARK TIME BY NUMBERS, SQUAD—ONE, the cadet shall take a half pace with the left foot, placing the foot flat on the ground naturally. Maintaining the same cadence, bring the right foot into the left in a straight leg manner, not scraping the ground; and simultaneously, cut the arms to the sides and assuming the position of attention.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- taking a pace larger than 35 cm (one half pace); and
- scraping the right foot on the ground as it is being brought into the left.

On the command SQUAD—TWO the cadet shall bend the left knee so that the lower leg and foot are allowed to hang at a natural angle and the toe is 15 cm above the ground; place the toe on the ground before the heel as the leg is lowered; and continuing to mark time until the command FOR—WARD or HALT is given.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- not holding the arms straight and firmly to the sides;
- swaying side to side;
- quickening the pace; and
- not maintaining dressing.

On the command MARK – TIME, combine the two movements. The timing is “left—in—left—right—left”.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Note. From The Canadian Forces Manual of Drill and Ceremonial (p. 3-16), by Director of History and Heritage 3-2, 2006, Ottawa, ON: Department of National Defence.

Figure 1 Marking Time in Quick Time

CONFIRMATION OF TEACHING POINT 1

The cadets' marking time will serve as the confirmation of this TP.

Teaching Point 2

Explain, demonstrate and have the cadets execute forward from marking time.

Time: 10 min

Method: Demonstration and Performance

FORWARD FROM MARKING TIME

The command for Forward is given as the left foot is on the ground.

This movement is not taught broken down as it is best learned as a complete movement.

On the command FOR—WARD, the cadet shall straighten the right leg and assume the position of attention; shoot the left foot forward in a half pace; and continue to march in quick time, swinging the right arm forward and the left to the rear.

On the command MARK – TIME, combine the two movements. Utilize the timing: “left – in – left – right – left”.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include:

- arms not held straight and firmly to the sides;
- not stepping off with the rest of the squad;
- stepping off on the wrong foot; and
- initial pace larger than one half pace.

CONFIRMATION OF TEACHING POINT 2

The cadets' executing forward from marking time will serve as the confirmation of this TP.

Teaching Point 3

Explain, demonstrate and have the cadets execute halting in quick time from marking time.

Time: 5 min

Method: Demonstration and Performance

HALTING IN QUICK TIME FROM MARKING TIME

The command is given as the left foot is on the ground.

This movement is not taught broken down as it is best learned as a complete movement.

On the command SQUAD – HALT, the cadet shall

1. take a further mark time pace with the right foot;
2. take a further mark time pace with the left foot; and
3. straighten the right leg in double time and assume the position of attention.

The timing is “one, one-two”.

On the command MARK – TIME, combine the two movements. Utilize the timing: “left – in – left – right – left”.

Practice the movements with:

- the **instructor** calling the time;
- the **squad** calling the time; and
- the squad **judging** the time.

Constant checking and correcting of all faults is essential. Faults shall be corrected immediately after they occur.

Common faults include not halting at the same time as the rest of the squad.

END OF LESSON CONFIRMATION

The cadets' executing marking time, forward and halting in quick time will serve as the confirmation of this lesson.

APPROACH

A practical activity was chosen for this lesson as it is an interactive way to allow the cadets to participate in a drill competition.

INTRODUCTION

REVIEW

Review the drill movements from EO M108.01 to M108.11

OBJECTIVES

By the end of this lesson the cadet shall have participated in a drill competition.

IMPORTANCE

It is important for cadets to be able to perform drill movements at a competent level, developing sharpness, esprit-de-corps, physical coordination and alertness. These movements should be executed with ease ensuring that the cadets efficiently moving together as one will promote discipline, alertness, precision, pride, steadiness and cohesion.

ACTIVITY

Time: 90 min

OBJECTIVE

The objective of this activity is to have the cadets participate in a drill competition.

RESOURCES

- Tables,
- Chairs,
- Masking Tape,
- Stop Watch,
- Portable hand counters (clickers),
- Drill sequence,
- Pens,
- Parade markers, and
- Judges.

ACTIVITY LAYOUT

Set up the drill hall or outdoor parade square with tables and chairs. The drill area will be marked off, to include a restricted-access area large enough to accommodate execution of the marching and wheeling components of the competition with a judge's table placed mid-point along one of the sides of the drill area.

ACTIVITY INSTRUCTIONS

1. Divide the year one cadets into squads not to exceed 10 cadets.
2. Appoint a team captain (Drill Team Commander), at a minimum, a year three cadet in training to direct the team through the drill sequence.
3. Provide each team time to practice as a squad prior to competing. During this practice, the team captain will review all rehearsed movements from PO 108.
4. Have the drill team commander lead the drill team through the entire drill sequence.
5. Without assistance, acting as a drill team in a competition environment, the flight will follow commands and be marked on its performance of the specified drill sequence. Cadets will respectfully observe the performance of other flight drill teams whenever they are not performing.
6. Marking will be performed by the judges using the marking guide located at Attachment C and the marking sheet located at Attachment D. When numerous flights are competing, it is necessary to maximize the use of time. As the flights rotate through the competition, flights waiting to perform or flights that have already performed can be scheduled for other concurrent activities (eg, while one flight is waiting to perform another flight is undergoing uniform inspections).

SAFETY
